REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 12/21/2005 has been entered.

The patent WO 94/17410 cited on the accompanying IDS has been considered. The reference teaches detection of antigen in circulatory immune complexes (CIC) using a format similar to that claimed, but does not teach or suggest detection of an antigen of an infectious disease such as hepatitis C virus. Furthermore, absent improper hindsight, the combined reading of the reference together with the prior art on HCV detection and HCV presence in CIC does not provide motivation to choose E1 or E2 as the HCV antigen to be detected in CIC, nor provide a reasonable expectation of success in detecting the virus by using the methods as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
